

SunLine Transit Travels In The Right Direction!

Ask students to scan the article to find a word that means in danger and another word that means to travel across. Write the target words on the board after the students have found them. Circle the *en* in *endangered* and the *trans* in *Transit*. Give students the following sort and ask them to say the meaning of each word and spell the word with a partner.

en-	trans-
endangered	transit
enclose	transfer
envelope	translate
encircle	transatlantic
encode	transmit
enfold	transport
enroll	

Plenty Of Prefixes!

Assign students to write a paragraph using as many words that have prefixes as possible. Tell them that the paragraphs need to make sense even though the paragraphs will sound contrived.
