

# BOO HOO HOO! YIPEE!

Chameleons change color to express emotions. Think of an emotion you would like a chameleon to communicate. Draw a chameleon and decide what color to make it. Have your chameleon “talk” by writing how it is feeling and why. Create a speech bubble to write in. Use the example below to double-check your punctuation.

“I’m embarrassed. You laughed at me when I fell.”

Post your talking chameleons along with your classmates to make an interesting bulletin board display.
