

Name _____

Date _____

Many animals live by the Chesapeake Bay. Find out about these animals by putting these letter tiles together.

Kuma's hints:

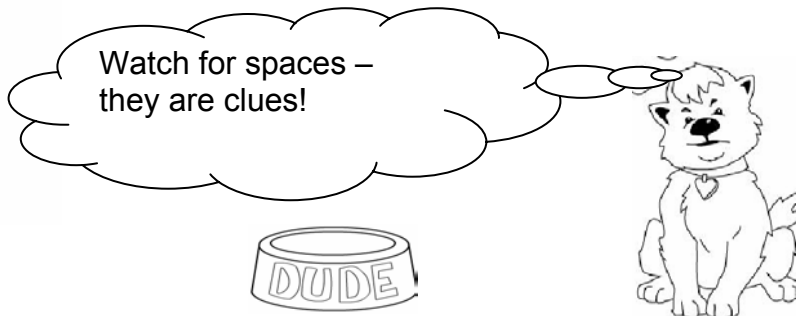

Is there a space between the first and last letter like this? →

It means that the first letter (A) is the last letter in a word. The last letter (F) is the first letter in another word.

Watch for spaces – they are clues!

Do you see the clues?

1. The tile with only E on it could be the last one. That's because there are no letters that come after it. There are two spaces.
2. The tile with E D on it is the end of a word. There is one space after the D.

Write the sentence on the line.

Now on to those Chesapeake Bay animals... Write each sentence on the line.

ER SF WAT OYS ER ILT TER

A. _____

ES NP DE LIV AGL EES BAL INE
TR EI

B. _____

RS HAR SAN

HE DBA SWI

NT MI BAY KS

C. _____
